

“Becoming the Original You” exposes the personal journey of one in search for “who they are”, and finding “Truth” by understanding the purpose of their existence. It reveals the changing of a mindset from what family, and society says you should be to a mindset of accepting the “possibility” of who you were meant to be from the moment of your birth. “Becoming the Original You” uncovers the fact that before you can live life at a true state of peace and live a life that is fulfilled; we must become empty of every influence that we have allowed to shape who we are, and look within ourselves and search out the purpose that we were born with. The journey is accepting this new mindset and refusing to settle for the life dream that someone else would give us.
